

Lutheran Churches and Schools in Hungary

The Lutheran Reformation began to spread to today's Hungary in 1518.
The common work of the Hungarian followers of Luther and Calvin lasted
until 1591.

In Hungary the service of three bishops directs the work running in the congregations, for getting the gospel even to places where only one Lutheran person lives, but it should be heard also in places where our congregation members are in majority. The seats of the three church districts (Buda, Győr and Pest) serve also as spiritual centres for all Lutheran people.

The administrative centre of our church (In Budapest) is such a place of service which supports the work of the congregations and the church institutions. Besides the departments for education, economy, building activities, legal cases and youth questions

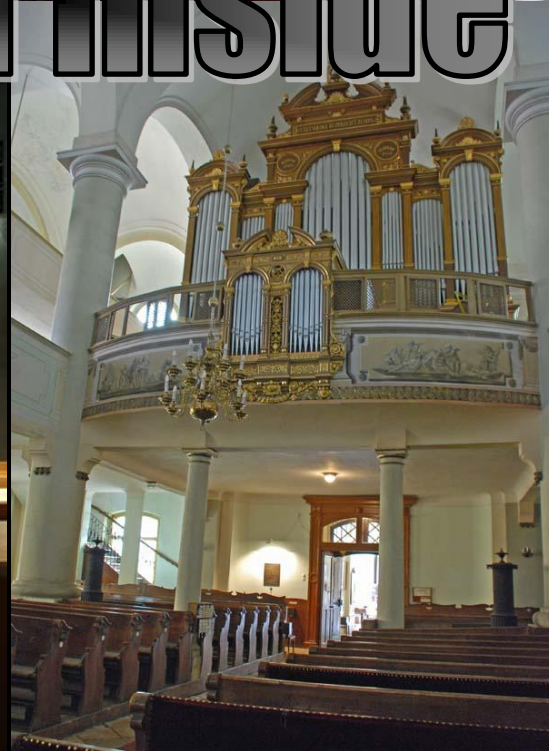

Outside...

... and inside

Lutheran Education

In our 37 **educational institutions (nurseries, schools)**, about seven thousand students prepare themselves for life, with the help of nearly one thousand teachers. Lutheran Schools was really famous in the past. A lot of famous Hungarian inventor, mathematician studied there.

At the Lutheran Theological University, more than hundred students carry out their studies at the faculties for the pastors' education, or the religion teachers' training for primary and secondary schools.

And finally there are some Lutheran School
