

I INTRODUCE
MYSELF

ABOUT ME

- Hi my name is Angela Pesce, I'm 18 years. I was born on the 20th of December in 1993. I live in Italy, near Brescia. I'm attending the third class of High School. In the next clip there is my photo.

MY FAMILY

- In my family there are five people: me, my father, my mother, my sister and my brother. My father, Giuseppe is 52 and he is a contractor and a van-driver. My mother, Giuseppina is 49, she is a housewife but she works at home as a dressmaker, too. My sister, Silvia is 30 and she is a social worker, she helps children with psychological or physical problems. Then, there is my brother, Giovanni, he's 27 and he doesn't work at the moment.

ABOUT SCHOOL

- I'm attending the third class of high school at the Institute Don Primo Mazzolari in Verolanuova. I like a lot this school because there are many languages, especially Spanish. I speak English, French and Spanish. I don't study a lot because I don't like very much school, but I do the necessary for the average marks in all the subjects.

MY HOBBY

- In my free time I like so much playing volleyball, going out with my friends, watching tv and listening to the music. I haven't any favourite singer in particular, I appreciate all kind of music.

AROUND THE WORLD

- I'd like travelling around the world, but for now I've never been abroad. I'd like to visit Hungary but also others countries at least the most important cities and meet new guys.
